

Zabrze, 29.04.2004

## REFERENCE LIST

Our company have been using Light Energy Controller (LEC) provided and installed by Bricks & Bits Ltd. since beginning of the 2004.

The installation was done with respect to technical standards and meets our demands. Devices generate, as promised, savings on average level of 25% on electrical consumption in lightning circuits. During operation time we didn't notice harmful influence on light sources.

We are satisfied with service and support which is provided by Bricks & Bits Ltd.
